ABOUT JOHN GUEST

With 60 years of engineering driven by a spirit of innovation and a focus on quality and technology, John Guest has become the world's leader in plastic push-fit fittings, tubing and fluid control products. The trusted choice for OEMs around the globe, John Guest serves a diverse range of markets and applications.

BESTSELLERS

Polypropylene Angle Stop Adapter Valve, 3/8 x 3/8 x 1/4 (Low Lead)

- 3/8" x 3/8" compression, 1/4" push-fit outlet
- Polypropylene, low-lead, NSF potable-water rated
- Quarter-turn shutoff for cold water

Polypropylene Angle Stop Adapter Valve, 3/8 x 3/8 x 3/8 (Low Lead)

- 3/8" x 3/8" compression with 3/8" push-fit outlet
- Polypropylene, low-lead, potable-water rated
- Quarter-turn shutoff

Single Check Valve 1/4

- Prevents reverse flow in 1/4" lines
- 1/4" push-fit ends for quick install
- Low cracking pressure for normal flow

Why Choose John Guest

- *Faster installation than compression or solder*
- *Tool-free, reusable, and easy to service*
- *Reliable, leak-resistant connections*
- *Certified for potable water and widely compatible*
